# Midwest Must-Have: Flea & Tick Protection for Happy, Healthy Dogs

In the Midwest, where fleas and ticks can be a year-round concern, protecting your dogs with flea and tick prevention products is essential. It ensures your pets stay comfortable and disease-free, allowing them to enjoy their outdoor adventures without worry.

**INFECTION RISK**  
LOW HIGH

## 2024 WI Lyme Disease By the Numbers...

**UP TO 50%** **Lyme Disease Prevalence:** In Lyme-endemic areas, approximately 10% to 50% of ticks may carry the Lyme disease bacterium (*Borrelia burgdorferi*).

**YEAR-ROUND Risk** **Year-Round Risk:** Fleas and ticks can pose a year-round risk for dogs, especially in warmer climates.

**OVER 90%** **Prevention Effectiveness:** Proper use of prevention products can offer over 90% protection against flea and tick infestations. Consult your vet for the best preventive measures.

SCAN THE  
QR CODE TO

Aquarium Rocks

### RECREATING A NATURAL HABITAT

For a freshwater fish, use pebbles and introduce water movement to recreate the feeling of a river.

### STIMULATING ENVIRONMENT

Fish toys can provide intellectual stimulation, encourage exercise, and decrease the chances of disease.

### CLEANING & CONDITIONING

Different fish exist at various pH levels. A pH kit is a wise investment for a freshwater fish pet owner.

## Jason, we hand picked these offers just for you.
